

**If there's something to discover,
you'll be sure to see it.**

The HEINE DELTA 30 Dermatoscope.

The HEINE DELTA 30 Dermatoscope. You could buy it because of its looks. Or because of its optics.

Extremely sharp image with the achromatic HEINE optical system

Fast change from contact to non-contact examination

Ergonomic handling due to angled product design

Largest true field of view of 30 mm (lens 32 mm) Ø

LEDHQ
LED IN HEINE QUALITY.

Excellent colour rendering due to LEDHQ

Digital documentation with the exclusive HEINE DERManager*

- **Crystal clear image**, no matter if you prefer a closer or greater working distance
- **Polarisation** eliminates reflections and glare
- **Brightness control**: 3 levels of light intensity
- **Easily cleaned with spray disinfectant**
- **10x magnification**
- **No cross-contamination**: autoclavable contact plate with scale
- **Dioptre compensation**
- **Switch between polarised and non-polarised illumination mode at the touch of a button** = toggle function. For more information, please visit heine.com/en/Toggle

- **Rechargeable battery with Li-ion technology**: no memory effect; safely recharge the battery regardless of its state of charge
- **Small contact plate** for difficult-to-access pigmented lesions
- **Charger 30 table charging station**
- **Possibilities of digital documentation**:
 - Image and data management convenient and intuitive with the HEINE DERManager.* More information on our website: www.heine.com/en/digital
 - Conventional digital images with many popular smartphones
