Indirect Ophthalmoscope

HEINE OMEGA 600

High-End Indirect Ophthalmoscope

HIGH TECH. LOW WEIGHT.

There is so much to discover inside the eye. And often tiny details can make a big difference. That's why we provide you with the best optics, the sharpest image, and reliable colors. Along with the capability to explore the whole retina, including the far periphery. This way, the optimal care or treatment for the patient can be determined, based on a diagnosis that is as accurate as possible.

This is why we've developed the HEINE OMEGA 600, based on valuable physicians' input.

visionBOOST for cataract patients.

More confidence in the diagnosis when examining patients with media opacities. Proven to deliver up to 20 % better view of the retina in patients with cataracts*: no matter what circumstances – always the ideal working brightness for both the patient and the user.

And there is even more: The HEINE OMEGA 600 is the lightest high-end indirect ophthalmoscope. The extremely compact lithium polymer battery is a true lightweight that delivers absolute top performance. With all cables and electronics integrated in the headband, this ophthalmoscope is the state of the art. So discovering more has been made even more comfortable.

Try the HEINE OMEGA 600 for yourself. But be careful: once you put it on, you will never want to take it off...

*Data on file.

LIGHTER. BRIGHTER.

We kept the best and perfected the rest!
Highly comfortable, the HEINE OMEGA 600 delivers
a class of technological innovation:

smooth SURFACE

PRACTICAL, CABLE-FREE HEADBAND

Maintenance-free and easy to
disinfect thanks to smoothSURFACE

ULTRALIGHT LITHIUM POLYMER BATTERY

Operating time of up
to 8 hours depending on
illumination intensity

YELLOW, BLUE OR RED-FREE FILTER

To adjust to
diagnostic needs

RIDGE-FREE, EASY TO DISINFECT SURFACES

Thanks to smoothSURFACE

BETTER.

DURABLE FAUX LEATHER PADDING

Comfortable and easy to disinfect

INTUITIVE LOCKING OF THE OPTICS UNIT

Simply adjust height,
distance and angle

UP TO 20% BETTER VIEW IN MEDIA OPACITIES WITH visionBOOST

LED^{HQ} light as you and your patient
need it: from 3 to 100%, or even up to
245% for cataract examinations

HIGH DURABILITY DUE TO THE SEALED OPTICS UNIT

Easy to disinfect thanks
to smoothSURFACE

BETTER VIEW DUE TO NON-REFLECTIVE FRONT GLASS

Optimized for our unique,
maintenance-free LED^{HQ}

BEST POSSIBLE 3D IMAGING FOR ANY PUPIL SIZE AND PERIPHERAL VIEWS

Thanks to the Stereoscopic Adjustment Technology

YOU CAN ONLY DIAGNOSE WHAT YOU SEE.

Most precise diagnostic, up to the far retinal periphery

- ▶ Significantly better diagnostic due to unique visionBOOST – even in dense cataracts
- ▶ Sharpest fundus image due to superior glass optics
- ▶ Brightest fundus image with true color rendering thanks to our unique LED^{HQ} – now in even more natural colors
- ▶ Best 3D imaging due to our unique Stereoscopic Adjustment Technology
 - in dilated and undilated pupils
 - even with prematures and newborns

LESS IS MORE:
LESS CABLING.
LESS FIDDLING.
LESS WEIGHT.

Lightest high-end indirect ophthalmoscope worldwide

- ▶ Best wearing comfort
- ▶ Personalized fit
 - Ergonomic positioning of controls and levers
 - Adaptable for right and left handed users
 - Flip-up function for more convenient patient interactions

OMEGA 600 Indirect Ophthalmoscope (with battery and +2D eyepiece), E4-USBC, eyepiece 0D* [01]	C-008.33.610
CC1 charging case [02]	X-000.99.091
CB1 charging battery [03]	X-007.99.687
E4-USBC power supply with cable [04]	X-000.99.300
CW1 wall charger [05]	X-095.17.320
TM2 teaching mirror [06]	C-000.33.212
OMEGA 600 traveller bag [07]	C-080.00.000
OMEGA 600 Breath Shield – 1x [08]	C-000.33.018
OMEGA 600 Breath Shield – 3x	C-000.33.019
OMEGA 600 WALL CHARGER SET: Indirect Ophthalmoscope (with battery and +2D eyepiece), E4-USBC, eyepiece 0D*, CW1 wall charger	C-008.33.612
OMEGA 600 TRAVELLER SET: Indirect Ophthalmoscope (with battery and +2D eyepiece), E4-USBC, eyepiece 0D*, traveller bag	C-008.33.613
OMEGA 600 STUDENT SET: Indirect Ophthalmoscope (with battery and +2D eyepiece), E4-USBC, eyepiece 0D*, TM2 teaching mirror, traveller bag	C-008.33.614
OMEGA 600 CHARGING SET: CC1 charging case, CB1 charging battery	X-000.99.090

***Eyepieces:** To best accommodate your view, you can exchange the initially mounted eyepieces +2D with the neutral lenses 0D (supplied with the instrument).

THREE WAYS TO CHARGE THE BATTERY

E4-USBC power supply with cable [04]

CW1 wall charger [05]

CC1 charging case [02]

Common view of a retina through a cataract*

View of a retina through a cataract with visionBOOST*

SEE WHEN YOU CAN'T SEE.

Up to now, when the front of the eye was clouded by media opacities, such as a cataract, the retina could not be viewed or only to a limited extent.

The unique visionBOOST improves the view of the patient's retina up to 20 %.

In most patients examined, the function improved the view in presence of mild and moderate cataract. In principle, this was the case for all cataract subtypes (nuclear/cortical/posterior according to the LOCS III classification).

In the case of well-defined, stronger, small opacities (beginning cortical/posterior cataract), the view improved noticeably when examining the respective affected fundus area. Very small opacities almost completely disappeared thanks to the brightness boost.

In eyes with predominant nuclear sclerosis, the boost function resulted in a generally sharper and higher contrast image.

Dr. med. Wintergerst, University Eye Hospital Bonn, Germany

HEINE INSTRUMENTS ARE SO DURABLE, YOU CAN COUNT ON THEM FOR YEARS AND YEARS, AND YEARS ...

**Long-lasting investment thanks to
its robust design**

- ▶ Maintenance-free, dustproof optics
- ▶ Legendary HEINE durability
 - optics firmly mounted on an aluminium frame
 - high quality materials
 - 100% Made in Germany
 - unique thermal management of LED^{HQ}
- ▶ 5-year guarantee on material, processing and construction

Details can be found at www.heine.com/en/service-support/guarantee

EASY AND EFFECTIVE DISINFECTION.

Thanks to smoothSURFACE

- ▶ No openings
- ▶ Integrated electronics
- ▶ Available HEINE OMEGA 600
Breath Shield

QUALITY made in GERMANY.

Many people ridicule us Germans for being so meticulous and detail-oriented – millions of doctors love us for it!

As a global leader in the manufacture of primary diagnostic instruments with over 500 employees, HEINE Optotechnik has been a 100 % family owned and managed company for more than 75 years. We continue to develop and manufacture HEINE instruments at our facilities in Germany, where we combine decades-long experience and craftsmanship with the most modern manufacturing technologies.

If something on our instruments can be improved, then we will improve it, no matter what.

It is with this meticulous attention to detail and drive for top quality that we manufacture our products.

What does HEINE quality mean for our customers?

“Quality” is one of the most overused terms in marketing today. That’s why we don’t just talk the talk, we walk the walk: we live and breathe quality. In everything that we do: every product we make. Every lens we polish. Every screw we tighten. Every optic fiber we bundle. Quality is always at the forefront of our minds, every single day.

The durability of our instruments is legendary. And it’s no surprise: every single instrument is the result of decades of product development, continuous improvements, production and a 100 % quality control in our own facilities. We thoroughly ensure that our high expectations of quality are maintained.

That way we also ensure that our claim for our high-end products – that they allow for “the most accurate diagnosis, as early as possible” – is also met. No more, no less.
